FIAT DOBLO SPACEPLUS™

FIAT DOBLO SPACEPLUS™

The Gowrings Mobility Doblo SpacePlus™ is an extremely spacious car that can accommodate most wheelchairs.

With its unmistakable design, comfortable and versatile interior and its efficient and reliable performance, the Fiat Doblo is a lifestyle changer.

The car comes with a high performance and economical 1.4l petrol engine. Stop and start technology is available on certain models to deliver impressive fuel economy and lower emissions.

OUR CONVERSION

Our conversion has been designed and fully tested to deliver an exceptional passenger experience to the wheelchair user.

The unique bi-link rear suspension is retained, absorbing noise and vibrations to deliver the optimum combination of comfort and driving pleasure. The lowered rear floor provides greater visibility whilst a lightweight ramp makes entry into the class-leading rear cabin space a simple task.

The versatile passenger space can offer the option of a seat either side of the wheelchair allowing all rear passengers to sit together, a rarity in a 'small' converted vehicle.

A host of additional options are available to fully tailor your new car to your needs. Please contact us for further details.
